2) The duties of the Unit Advisory Board are as follows:

- a) To make advisory decisions regarding the updating of curricula and/or course contents by taking into account market dynamics and the demands and expectations of external stakeholders, and to submit these decisions to the unit management board,
- b) To initiate collaborations with the business sector and other stakeholders in order to enhance the unit's contributions to education and training activities, research and development efforts, as well as scientific, social, cultural, and artistic events,
- c) To make advisory decisions aimed at improving, developing, and disseminating the quality of management, education and training, research and development, and community contribution processes within the units by considering the demands and expectations of external stakeholders,
- d) To identify the areas needed by the sector and encourage activities such as education, projects, seminars, workshops, theses, and consultancy within the units,
- e) To encourage the enrichment of educational activities in the units through internships, practical training, workshops, fieldwork, consultancy, mentoring, and to play a role in spreading exemplary practices throughout the university via the University Advisory Board,
- f) To determine the contribution that units will provide in achieving the university's strategic goals,
- g) To make recommendations regarding the opening of new departments/programs by considering sector needs and the expectations of external stakeholders,
- h) To propose suggestions and initiatives to increase the recognition of the unit.
